

Daycation FAQ

What is Daycation & how is it different than daycare?

Daycation is a safe structured enriching environment for pet parents with dogs that may not be suited for traditional daycare. The Daycation program is custom tailored to each dog's individual needs through various sense stimulating activities, puzzles, relaxation periods, and independent play times. Daycation is sure to tire your dog out while not leaving them overly exhausted or over stimulated.

Who is the ideal candidate for this program?

This program is for dogs that may not thrive in a traditional daycare setting and may benefit from engaging custom activities to challenge both mind and body.
